D.2. EGQR (European Games Qualification Ranking)

The European Games Qualification Ranking (EGQR) is established separately for each individual Olympic event included in the programme of the 2027 European Games.

The EGQR is based on points earned by athletes at the Qualifying competitions during the Qualification period (February 2026 - 20 April 2027). EGQR points are awarded according to the athlete's final placing in the respective event at each Qualifying competition, in accordance with the EGQR Points Table (Annex 1)

The EGQR is used for the reallocation of unused quota places. In case of a tie on EGQR points, the higher position in the EGQR will be determined by:

- (1) the best single result (highest number of EGQR points achieved at one Qualifying competition);
- (2) if still tied, the next best result.

The Qualifying competitions for the EGQR are listed in Section D.1.

If a Qualifying competition is cancelled or cannot be conducted, the ESC may apply the EGQR for the reallocation and allocation of any remaining quota places, subject to the final decision of ESC/EOC.

Please follow the latest official updates on the ESC website:
